after a short visit.

It is understood that United States District Attorney Lassiter has decided to appoint R. R. Prentiss, of Suffolk, assistant district attorney. This is the position for which Mr. C. C. be candidates in the primary election on May 2d was then read and most of the assessments were paid. It was suggested that all who had not paid do so suggested that all who had not pant do so as early as possible and that those who fail to pay by Saturday should have their names dropped from the ticket. It was agreed that the registrar and

the two judges from each ward who shall have the power to select two clerks be empowered to conduct the primary election, and that only known demoelection, and that only known demo-crats or those who may pledge them-selves to support the ticket be allowed to participate. It was also determined to open the polls at suarise and keep them open until sunset. In the event of the failure of the registra or judge to agree on the election of clerks, the latter will be appointed by the chairman of the committee.

It was agreed that all known democrats who will become of age in time to vote at the general election be allowed to participate in the primary. Considerable time was then consum-

ed in the nomination of persons for the Board of Aldermen, Common Council, Magistrates and Constables, and that work having been finished, an execu-tive session followed, during which the entire ticket was revised. The names of all save one of those who had announced themselves as candidates for the various city positions subject to the action of the democratic primary were retained. There was a decided protest from the Fourth ward against Jos. D. Brown being allowed to enter the primary as a candidate for Superintendent of Police, and it was decided to drop his name from the ticket, his democracy not having been established. After the transaction of some business preliminary to the holding of the primary election the committee ad-

journed until Saturday night. SENT TO THE WORKHOUSE.-It will be seen by the police report that one of the lazaroni of Alexandria in the shape of a thieving black boy has been sent to the workhouse for stealing coal from to the workhouse for stealing coal from a car at the W. & O. depot. As is invariably the case with such, when questioned this morning by Mayor Strauss, he said he had no father but a mother. variably the case with such, when questioned this morning by Mayor Strauss, he said he had no father, but a mother. It is stated that when these street gamin fail to find coal on the ground that section of the city daily, refusing to work and preving on whatever they can find, steal or beg. It would be well to enforce the vagrant law or all such and send them to the workhouse or compel them to go into the country where plenty of work awaits them. Abolish at once station house:

sity to shed tears on any occasion whether in exhorting or watching a Punch and Judy show. In low, whining tones and in measured terms he unfolded a tale which, if true, makes him too good for this world. He says a gang of negro boys and girls have for tions, amounting to about \$800. Ovelsome time made his house a rendez-vous, bringing their collections there daily; that he has ever been careful to Avenue A. M. E. Church. On Monday warn them against kleptomania, as it might give his house a "bad name," but before he could finish his story he collapsed into paroxysms of weeping and wailing. The names of the gang, among which is a woman, were finally extorted from him, warrants for their arrest issued, and the officers started after them. They will either be captured or made to leave the city to evade arrest.]

Personal.—Mrs. Alice M. Figart, accompanied by her brother and son, who has been visiting her sister. Mrs. M. I. Terry, of Baltimore, has returned home after a short visit.

A similar petition from W. L. Williams, of the Third ward, who is an applicant for the position of Superintendent of Alleys in Washington, was received and the petitioner endorsed.

Carl W. H. Frentiss is a young law-yer of ability, and is very popular in the Second district where he is well-known. He was an elector last fall and was recently a candidate for District attorney. Capt. W. H. Fowle, brother-in-law of ex-Mayor Beckham, is among the recent arrivals at Washington.

A very charming little party was tendered at the residence of Mr. and

Mrs. H. B. Ramey last night in honor of their little daughter, Nellie Margaret Ramey, the occasion being her eighth birthday. The little ones engaged in games for a while and then they found their way to the dining room, where a most tempting table was set. Among those present were Misses Elsie Acton, Pauline Pretzfelder, Hortense Letterman, Daisy Williams, Elizabeth Bryan, Hallie Gatewood, Hildreth Gatewood, Bertie Hancock, Leslie Ramey, Marga-ret Germond, Liltie Kersey, Gladys Ramey and Margaret Ramey. Rev. Kinloch Nelson, of the Theo-

logical Seminary, conducted services in the University chapel on Sunday, in the absence of the chaplain. Attorney General R. T. Scott was in

the city to-day.

THE VULCANIZING WORKS are being rapidly prepared for operations. Three of the large tanks to be used in the vulcanizing of wood have arrived and workmen are placing them in position. Ponderous engines and other machin-ery are on the ground and will soon be in running order. Workmen are engaged in erecting the smokestack and others in the preparation of foundations for the machinery and other apparatus necessary for the work contemplated. About \$100,000 will have been appared in this property by the time. been spent on this proper-y by the time it is metamorphosed into a shape suitable for the purposes of the company. It is claimed the works will be able to handle 200,000 feet of lumber per day.
The tanks will develop a temperature
of 300 degrees of heat, with a pressure
of about as many pounds. Timber forty-eight hours old can then in a few
hours be made as hard and become as ty-eight hours of the mark and dashed as the made as hard and become as thoroughly seasoned as that cut years thoroughly seasoned as that cut years previously, and dashed for one of the Measurers of Lumber, and Jas. W. Simpson being no longer a candidate for Clerk of the Market, Messrs. Wm. M. Smith and Lambert Lyles are candidates for the office. The ticket as revised is as follows: been pointed up and glazed and made much more presentable than they have been for years.

IN TROUBLE AGAIN.—Henry Arnold, colored, after an interval of about two weeks, was again in the police court this morning, unkempt, with the right side of his face swollen like a bladder, an abrasion on the left side of the nose and a two inch source against the sum of the side of and a two-inch-square scratch on the left cheek in the shape of the letter Z. About six o'clock yesterday evening the fumes of whisky began to work on Arnold, and, as is usual on such occasions, his wife became the target for his fists and abuse. According to her statement, he struck and otherwise ill-treated the weaker vessel, and finally ejected her from the house and threw her clothes in the street. About two hundred people gathered at the intersection of St. Asaph and Gibbon streets where the parties live, and the oaths and indecent language that the defendant emitted were heard for some dis-tance. Officer Ticer repaired to the scene and arrested Arnold, who insisted that his better-half be brought along too. This morning they both told remarkable stories which tended to show that marriage with them had proven a decided failure. The wife said she had struck her husband across the face with a stick after he had assaulted her. Mayor Strauss fined Arnold \$5 and discharged his wife.

NEGLECTED CHILDREN.-This morning while a gentleman was passing up Lee street his attention was attracted by a small black boy whose jaw was swollen and who was crying. He appeared to be in much pain and in reply to questions said his mother had beaten It was later learned that the boy is the son of a well-known colored wo man living in the bottom near Windmill Hill, whose convivial babits have long in fail to find coal on the ground they no maternal care for her children, but don't hesitate to board cars and allows them to creep through the streets steal it, and that often they break the or over the railroad tracks like tumblebugs, and if she fails to give security for seal of cars to get at the contents. bugs, and if she fails to give security for Squads of these hoodlums invade every the better care of her offspring in future she may forfeit the pension.

ANOTHER MINISTER GONE WRONG.

—A dispatch from Pittsburg, Pa., says that Rev. Friday A. Ovelton, colored, he disappeared suddenly taking with him, it is alleged, the amount mentioned, which covers rent collected for the church property, pew rent, house

rent and borrowed money.
[No such man is known by the colored people of this city.]

THE RIVER FRONT,-Affairs on the river front to-day were decidedly quiet.

A gentle rain fell during part of the morning. A few vessels drifted lazily up the stream and about as many more were making slow progress in attempting to beat down. A majority of the craft now seen are going to or returning from the fishing shores. The Norfolk steamer was about two hours late this morning, caused by delay in following the fleet of men-of-war from Hampton Roads to the capes yesterday. Many Alexandrians were among the excursion party she had aboard.

GAVE THEM THE SLIP AGAIN .- Nat Jackson, the negro chicken thief, gave Captain Wood, of the chain gang, the slip again this morning, carrying his ball and chain with him. Nat had been at work on Gibbon street, between Asaph and Washington and being allowed to go with another of the gang into an alley forgot to emerge and was later found to be among the missing. Serving on the chain seems to be a sort of hide-and-whoop game for many sen-tenced to it, and it is thought the gang would be just as safe without the pre tended surveillance of an overseer.

FISHTOWN presented a quiet appearance this morning. Three or four ves-sels were discharging fish and a number of cutters were at work. But few country wagons were on hand, the railroads having rendered them useless for the transportation of fish. The country wagon trade here during the fishing season in by-gone days was an-ticipated with bright expectations, but now, like many others, it is a thing of the past.

PROPERTY SALES.—Orlando Deavers and wife have sold to C. E. Ward a house and lot on the east side of Coumbus street, between Queen and Princess.

John H. Grillbortzer and others have sold to Mattie Hackley a lot on the east side of St. Asaph, street between Gibbonand Franklin.

THE ICE FACTORY .- Work on the ice factory at the foot of Cameron street is being pushed and it is said the manufacture of ice will be commenced there by the first of May. Two new con-densers, weighing three tons each, arrived this morning and will be placed in position at once.

Fish.—Since yesterday 90,000 her-ring and 200 shad have been received at Fishtown. Herring sold at \$4,75a6.00 per thousand and shad at \$10a24 per
